Professional Summary

Dynamic Computer Science undergraduate with a proven track record in campus leadership, strategic problem-solving, and distilling complex tech concepts into actionable business value. Leveraging experience in stakeholder communication, social media branding, and data analysis to pivot into the Founder's Office Intern (Enterprise Relations) role. Eager to apply a "curious hunter" mindset, deep-dive strategic research, and Account-Based Marketing (ABM) strategies to drive multi-channel prospecting and C-level executive outreach.

Experience & Campus Leadership

Mharo Rajasthan Club

Technical Team Lead

VIT Bhopal

May 2025–Present

- Directed technical operations and cross-functional teams for one of the university's largest student organizations.
- Oversaw 1000+ event registrations end-to-end and successfully managed on-ground coordination for a flagship event receiving 1500+ entries.
- Maintained strict data hygiene for participant metrics and mentored junior team members to ensure smooth operational execution.

Internshala

Student Partner

VIT Bhopal

June 2026–Present

- Represented the platform on campus to drive registrations, utilizing multi-channel prospecting to promote training programs.
- Actively participated in social media branding campaigns to boost outreach, engagement, and platform visibility among key stakeholders.

CollegeTips.in

Strategic Operations Intern

June 2024–July 2024

- Produced 18+ comprehensive reports and presentations to summarize findings and facilitate clear communication with stakeholders.
- Implemented operational process improvements and automation solutions, resulting in a 15% increase in productivity.
- Executed diverse creative tasks including targeted content writing, tailored outreach design, and digital marketing.

Unnat Bharat Abhiyan (Ministry of Education)

Innovation & Tech Coordinator

VIT Bhopal

Nov 2025–Present

- Managed tech-driven community projects, conducting deep-dive research to address real-world challenges faced by rural communities.
- Collaborated on strategic solutions, mapping complex local requirements to actionable, technology-driven implementation plans.

Competitions & Hackathons

Techkriti'25 | IIT Kanpur

3rd Place Winner - **Blockchain Nexus**

Mar 2025

- Built a Hyperledger Fabric-based blockchain solution optimizing Pfizer's pharmaceutical supply chain, showcasing an understanding of complex enterprise architectures.

The Matrix Club & Unstop

3rd Place Winner (Out of 50+ Teams) - **Media Morphosis 2025**

2025

- Solved complex data analytics problems using Semantic Algorithms and delivered a high-stakes case study presentation, demonstrating strong executive pitching skills.

The Matrix Club, VIT Bhopal

3rd Place Winner - **AIRM 2025 Series (Quiz)**

Jan 2025

- Awarded Certificate of Academic Excellence for securing 3rd place in a highly competitive academic and technical quiz series.

E-Summit 2024

1st Place Winner - **Case Study Competition**

2024

- Demonstrated strong business acumen, strategic problem-solving abilities, and executive presentation skills by winning the premier business case study competition.

E.A.S.Y

1st Place Winner (Out of 200+ Teams) - **Code Verse Hackathon**

2025

- Awarded 1st place for pitching and building an innovative smart-health solution. Showcased high-level product pitching, strategic design, and cross-functional team collaboration.

Projects

E.L.L.E [Environmental Lens for Liquid Evaluation]

2025

- Engineered a full-stack AI platform (React, Flask, MongoDB) democratizing environmental diagnostics by automating microplastic detection via a single API call, replacing costly lab equipment requirements.
- Optimized production deployment within a strict 512MB RAM cloud constraint by architecting an ONNX-headless YOLOv8 inference pipeline with lazy model loading, successfully preventing out-of-memory failures.
- Designed a resilient data architecture featuring MongoDB aggregation pipelines for real-time analytics dashboards, a 300-second cache invalidation system, and zero-dependency client-side PDF generation.

SehPaathi (AI Document Analysis Platform)

2026

- Engineered a robust analysis pipeline utilizing the Gemini Files API, enabling interactive Q&A over complex user-uploaded documents and external URLs.
- Built a secure, multi-module application with persistent session state management, highlighting the ability to rapidly synthesize massive datasets and company annual reports for personalized outreach.

E.A.S.Y (Enabling Accessible Smart-Health for You)

2024

- Developed a comprehensive healthcare platform to track patient vitals via IoT devices, generating instant health reports and automating emergency alerts and medication reminders.

Education

VIT Bhopal University

Bhopal, MP

Bachelor of Technology (B.Tech) in Computer Science – No Active Backlogs

2023–2027

DAV Kalisindh Thermal Public School

Rajasthan

Senior Secondary Education (Class 12) – Score: 70%+

2021–2023

DAV Kalisindh Thermal Public School

Rajasthan

Secondary Education (Class 10) – Score: 93%

2020–2021
